Looking for a Hot New *Career?*

As long as there are hot summers and cold winters, there will always be a need for skilled heating, ventilation, air conditioning and refrigeration professionals. With hands-on training and step-by-step guidance, IMBC can equip you with all the skills you need to work in this stable and rewarding field.

- **Program Length:** 48 credit hours
- **Program Type:** Diploma
- **Format:** In-person

By the time you complete this program, you'll be able to fabricate, install, troubleshoot and repair HVAC/R systems. You will understand mechanical controls, motors, electronics and basic commercial refrigeration. You'll also be prepared to sit for EPA 608 Universal certification, with your first exam attempt covered by IMBC.

What Do HVAC/R Techs Do?

HVAC/R professionals are responsible for installing, maintaining and repairing climate control systems in residential and commercial settings. They diagnose mechanical and electrical issues, perform regular maintenance and make sure systems meet environmental standards.

Where Do HVAC/R Techs Work?

There's a worldwide need for HVAC/R. Residential, commercial and industrial locations all require skilled professionals to ensure temperatures stay within comfortable ranges, no matter the weather. They're especially important in foodservice, where refrigeration ensures food safety.
