Accrediting Bureau of Health Education Schools

Make a Difference *Every Day*

Medical Assistants play an important role in the healthcare system, making a difference in the lives of patients and performing a variety of tasks to keep medical facilities running smoothly. IMBC's Medical Assisting with Phlebotomy diploma program gives you a fast-track into the field by teaching you versatile skills, including collecting blood samples.

- **Program Length:** About 1 Year
- **Program Type:** Diploma
- **Format:** On-Campus (with optional online component)
- **Total Clock Hours:** 1140

Toward the end of this program, you'll participate in an internship, where you will practice your new skills in a real-world setting. Upon completion, you'll be prepared to sit for Nationally Registered Certified Medical Assistant (NRCMA), Nationally Registered Certified Phlebotomy Technician (NRCPT) and CPR certification.

How long is the Medical Assistant with Phlebotomy diploma program?

The Medical Assistant diploma program typically takes students just over a year to complete. However, your actual time will vary depending on your academic progress, success, the number of courses you take, and other factors.

What is the internship for the Medical Assistant training?

Toward the completion of your program, all students will participate in an internship that lets you practice your new skills in a real healthcare setting with professional supervision. Before beginning an internship, you will be required to have a physical and obtain proof that all your immunizations are current.

What types of places does a Medical Assistant work at?

Medical Assistants typically work at the following types of organizations: hospitals, doctors' offices, nursing care facilities, and outpatient care centers.
