Start Your Career *in Healthcare*

From interacting with patients to measuring vital signs, Medical Assistants are an important part of every healthcare team. IMBC's Medical Assistant Technician Associate in Specialized Technology (A.S.T.) program is designed to equip you with valuable skills you can use to build your career in the medical field.

- **Program Length:** 1.5 Years
- **Program Type:** Associate in Specialized Technology
- **Format:** On-Campus (with optional online component)
- **Total Clock Hours:** 1500

This program includes an internship, which will give you real-world experience under professional supervision. Upon completion, you'll be prepared to sit for Nationally Registered Certified Medical Assistant (NRCMA), Nationally Registered Certified Phlebotomy Technician (NRCPT) and CPR certification.

How long is the Medical Assistant Technician Specialized Associate Degree (A.S.T.) program?

Most students will typically complete the Medical Assistant Technician Specialized Associate Degree (A.S.T.) program in about a year and a half. However, your actual time will vary depending on your academic progress, success, the number of courses you take, and other factors.

What is the internship for the Medical Assistant Technician training?

Toward the completion of your program, all students will participate in an internship that lets you practice your new skills in a real healthcare setting with professional supervision. Before beginning an internship, you will be required to have a physical and obtain proof that all of your immunizations are current.

What types of places do Medical Assistant Technicians work at?

Medical Assistant Technicians (MATs) typically work at hospitals, doctors' offices, nursing care facilities, or outpatient care centers.
