The Institute of Medical and Business Careers is institutionally accredited by the Accreditation Bureau of Health Education Schools (ABHES).

Turn Your Love for Animals into a *Career*

IMBC's Veterinary Technician Associate in Specialized Technology (A.S.T.) program is designed to equip you with the practical skills and knowledge needed to thrive in animal medicine. Through a blend of classroom learning and real-world clinical experience, you'll be prepared to support veterinarians in diagnosing and treating pets, ensuring compassionate care every step of the way.

- **Program Length:** 1.5 Years
- **Program Type:** Associate in Specialized Technology
- **Format:** On-Campus
- **Total Clock Hours:** 1560

The externship comes toward the end of the program and will give you real-world experience under professional supervision.

Where do Veterinary Technicians work?

Veterinary Technicians may work at a variety of organizations, including veterinary hospitals, zoo or wildlife facilities, boarding kennels, pharmaceutical sales, humane societies, or animal shelters.

Do Vet Techs work with patients?

Yes, in most cases you'll work with patients, except your patients will be animals. The type of animals depends on where you work, but might include traditional house pets, such as dogs and cats, or exotic animals, or birds, etc. You'll also help support the caregivers (owners) of the pets by providing them information about the well being and proper care of their animals.

How long is the Veterinary Technician Specialized Associate (A.S.T.) Degree program?

This is a specialized associate degree program that typically takes about a year and a half to complete. However, your actual time will vary depending on your academic progress, success, the number of courses you take, and other factors.
