What types of places does a Welding Technician work at?

Welding technicians, or welders, work at a variety of places, including fabrication shops, manufacturing/factories, automotive (including performance and racing), shipping (including leisure; cruises), building and commercial construction, and field work (pipelines, etc.).

Do Welding Technicians work with customers?

In some cases, a welding technician might work with a customer, depending on the type of business you are employed at and the type of work you will be performing.

How long is the Welding Technology diploma program?

Most students typically complete the Welding Technician program in less than a year. However, your actual time will vary depending on your academic progress, success, the number of courses you take, and other factors.
